University Introduction

A Overview

Welcome to Chosun University, the only privately established university in the Republic of Korea

Established in 1946 with the noble aspirations of approximately 72,000 founding members and began as the only privately established university in the Republic of Korea. This year celebrates the university 80th anniversary. Building on the proud legacy and achievements of its 80-year history, the university continues to advance using this legacy as a driving force for a new leap forward toward its centennial.

Chosun University: Proud National Private University of Korea

Founded in September 1946 as Korea's only national private university, Chosun University was established to nurture local talents who would contribute to the formation of Korea as a nation. Gathering the noble intentions of 72,000 founding members the university has now reached its 80th anniversary. Chosun University is preparing a new milestone toward a stable university celebrating its 100th anniversary.

Opening the Way to Student Success and Future Growth

Chosun University emphasizes its identity as an institution that fosters students developmental future and guides them to success with its founding educational philosophy of character education, productive education and gifted education. As a comprehensive university, offers an educational philosophy that integrates fundamental and applied disciplines providing a system that allows students to proactively plan their future and guide them to self-improvement and transformation to a better tomorrow.

Driving Regional Innovation and Providing Solutions for Local Growth

Chosun University aims to transcend the boundaries between the university and the local community positioning itself as a source of growth and innovation. By coexisting with the region and creating shared value, the university strives to become a regional think tank that delivers practical solutions for local development.
